**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 10-28 and 30-37 are allowed.
2. The following is an examiner's statement of reasons for allowance:
  - a. Regarding claims 10-20, a search of the prior art does not disclose or reasonably suggest a method of applying a solution consisting essentially of nitric acid to an opening extending through a dielectric layer and an exposed metal-containing layer without substantially removing the metal-containing layer followed by a phosphoric acid dip in the context of the entire claim.
  - b. Regarding claims 21-28 and 30-34, a search of the prior art does not disclose or reasonably suggest a method of cleaning a partial via in a dielectric layer having an exposed barrier layer with a phosphoric acid-containing solution including a fluorine-containing component followed by etching the barrier layer after the cleaning defining a bottom surface by a metal-containing trace and applying a nitric acid-containing solution in the context of the entire claim.
  - c. Regarding claims 35-37, a search of the prior art does not disclose or reasonably suggest a method of removing at least a portion of a dielectric layer through a mask,

forming an oxide polymer on the resulting opening, removing a barrier layer and a metal-containing layer, exposing the opening to a nitric acid containing solution, substantially removing any metal polymer layer present, without substantially removing the metal-containing layer exposing the opening to phosphoric acid containing solution and removing the oxide polymer layer in the context of the entire claim.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
